

Degreasing enhancer

eska[®]phor EM 400

Product characteristics and performance features

- Degreasing enhancer
- Improves the cleaning effect
- Distinctive surface and surface-active properties
- Extremely low foaming from room temperature
- sprayable

Application range

eska[®]phor EM 400 is mainly used in degreasing and phosphating baths in the spraying process to support cleaning.

The product is also used as a drainage aid in rinsing baths. This significantly improves the wetting of the components.

eska[®]phor EM 400

Advantages and benefits

Advantage:	Strong degreasing effect
Benefit:	Accelerates and improves the cleaning process
Advantage:	Extremely low foaming tendency
Benefit:	Energy-saving, as the bath temperature can be reduced
Advantage:	highly concentrated
Benefit:	Very good effect with small quantities added

Technical data

Density (20°C):	approx. 1.01 g/cm ³
-----------------	--------------------------------

Preparation and operating data

Concentration:	0.1 - 2.0 vol. %
